Blinds and Accessories

Practical Features

Unique Design

Keylite Blinds come with slim aluminium side rails for smooth operation and a clean classic look. This also gives increased natural light when the blinds are open.

Fully enclosed cassette

Protects fabric from discolouration and eliminates light glow around the edge.

Energy efficient

Controls solar heat gain. Thermal benefits reduce heat loss by at least 20%. (BBA Tested)

Fabric Options

Available as blackout, dimout and moisture resistant.

Fully encased side rails

Brush seals provide 100% blackout and improve thermal efficiency.

Cord free
100% child friendly

Innovative

- After extensive development and testing we are pleased to announce the launch of the NEW Solar powered Keylite Blind.
- This innovative feature puts Keylite right at the forefront of blinds technology and is the simple answer to opening and closing blinds in areas difficult to access.

Free Energy

- The solar blind is controlled with a hand held remote control.
- The solar panel is located in the cassette and collects energy from the sun which then provides a trickle charge to the battery.

Easy Install

- The installation process does not involve wiring or tracking the walls for mains electric, for ease of fitting.
- The battery pack, the motor for powering the blind, and the roller for holding the blind fabric are contained in a cassette secured to the top of the window sash.
